Greyville Square
Milnerton Ridge
Cape Town

Bruce, the owner of Red Gravel Construction, is attentive to the job at hand.

Bruce has carried painting and repairs at three of my properties, and has always done so with the highest level of professionalism, even for the smallest job.

Bruce's has a vast array of skills (e.g. plumbing, tiling, painting, etc.) which I have called on from time to time over the years. Bruce comes to do the quotes personally and are always provided in a timely fashion.

Materials of the highest quality are sourced on your behalf and installed in a professional manner. He is on site, managing your job personally with a keen eye for detail.

I have always found Bruce to be friendly, but a straight talker. He will give your job its full attention and wont bamboozle you with unnecessary extras which result in additional costs. He will first try and fix something rather than say it must be replaced.

Based on my experiences with Bruce, he is reliable and affordable.

Sincerely,
Denise
